How do Archetypes relate to each other?

Archetypes in Persona have a relationship to each other. We tend to think of the range of attributes as a continuum or a wheel:

Much like a color wheel we see that there are similar, inverted, synonymous, and complimentary archetypes. Here is a bit more on each of those:

- **Similar Archetypes** are archetypes positioned next to each other on the color wheel.
- **Inverted Archetypes** are the heroic- or villainous opposite of an archetype.
- **Synonymous Archetypes** are archetypes located at the same position of a given archetype on different color wheels.
- **Complementary Archetypes** are archetypes positioned directly across from each other on the color wheel.

Each character has a section in the create mode that shows the connections to the other archetypes as mentioned above. Here are two examples--one for the Man in Charge and one for the Valedictorian:

Connections for the Man in Charge

Connection	Archetype(s)
Similar	The Standard Bearer The Rebel
Inverted	The Tyrant
Synonymous	The Tyrant (Villain) The Center of Influence (Heroine) The Evil Queen (Villainess)
Complementary	The Outsider

Connections for the Valedictorian

Connection	Archetype(s)
Similar	The Table for One The Fighter
Inverted	The Know-it-All

Synonymous The Know-it-All (Villainess)
 The Expert (Hero)
 The Evil Genius (Villain)

Complementary The Outsider
