How do I email a file?

Corey Johnson - 2024-04-28 - Calc XLS

Emailing a file is simple, here's how:

In Calc XLS:

1. Open the file.
2. Tap the Files button (first on the left).
3. Tap Email File.
4. An alert allows you to select PDF or XLS.
5. The email is presented, fill in details and tap Send.
