Mariner Software

I see that you can choose a genre, does this mean that Contour will give structure for a genre as well or is this only for the writer?

Jim Henson - 2015-03-24 - Contour (Mac)

I see that you can choose a genre, does this mean that Contour will give structure for a Genre as well or is this only for the writer?

Genre is for the writer. It also helps so if you are a working writer and you get a call that studio X is looking for say, a Romantic Comedy, you can search by genre through your list of projects in Contour.
