How do I "GO TO PAGE" using only the keyboard instead of the menu?

This is easy to do through keyboard alone.

To do so:

1. From the Mariner Write menu, select Preferences.
2. Go to the "Keys" tab.
3. Click the "Menu:" pop down and select View.
4. Select and double-click "Go To Page" from the list of commands
5. Enter a keyboard shortcut that includes the Cmd key for example: "shift + Cmd + J".
6. Click OK

Now when you want to go to a specific page just use the keyboard shortcut, Type the page number and hit return.
