How do I import a recipe from the web?

Corey Johnson - 2015-12-13 - Gourmet Mobile for iOS

1. Tap the search magnifying glass on the bottom.

2. On the next screen, tap the "g" that is in-between import and the "go" magnifying glass. Another search field appears that is a google custom search.

3. Enter you search term in that search field.

4. Recipes matching display.

5. Tap on the recipe of your choice.

6. Tap "import" to import the recipe into your recipe box.

7. Tap Save.

8. Tap Done.
