I'm getting an "invalid email address" error when I try to set up my Mariner Cloud account?

Jim Henson - 2016-06-24 - MacGourmet Deluxe 4

I'm getting an "invalid email address" error when I try to set up my Mariner Cloud account?

Try setting up the cloud account from MacGourmet Deluxe on your Mac and then logging in to the cloud with your iOS device. Basically you want to set up the cloud account from your Mac, then sync to the cloud from there.
