I use Contour for Mac, and when I click in a text box, the screen seems to shift, or jump, so my cursor winds up somewhere other than where I clicked.

Jim Henson - 2024-04-21 - Contour (Mac)

I use Contour for Mac, and when I click in a text box, the screen seems to shift, or jump, so my cursor winds up somewhere other than where I clicked.

This issue is significantly alleviated in Contour 1.2. To update, select Check for Updates from the Contour menu, or visit our [downloads page](#) to download the update.
