"Improperly signed" error updating

Dawn Messerly - 2013-11-17 - Upgrading/ Updating Paperless

When you attempt to update Paperless from within the application (for example, when Paperless notifies you that an update is available, or after selecting **Check for Updates...** from the Paperless menu), you might see the following error:

Update Error! The update is improperly signed

If you encounter this error message, please [visit our downloads page to download the current version, and install it manually.](#)
