Is Paperless 3 available in the Mac App Store?

Paperless 3 is NOT available in the Mac App Store. Paperless 2.5 is the last version we developed for the Mac App Store. If you want to upgrade to Paperless 3 for Mac, you will need to do so through the Mariner eStore. Please send back a proof of purchase (the Apple e-receipt you received at purchase or a screenshot of your Mac App Store Purchases tab showing Paperless are examples we accept) to sales@marinersoftware.com and we will generate a temporary Paperless 2 serial number for you to use to validate your upgrade price ($29.95) in our eStore to upgrade to Paperless 3.
