Mariner Software

Paperless will often give the error "Paperless quit unexpectedly", what could this be?

Logan Ryan - 2020-04-03 - General Troubleshooting

While it could one of a few options, we have found that sometimes if the scanner is closed or quit out of too quickly after scanning, the connection to Paperless will be lost, causing Paperless to crash. If this isn't the case for you you, please contact our support@marinersoftware.com for other suggestions.
