What happened to Mariner Write?

Logan Ryan - 2019-10-09 - in Mariner Write

Effective with the release of Catalina (10.15), Mariner Software has ended development of Mariner Write. To update the product to 64 bit (and other various requirements) would have taken thousands of man-hours to achieve and as a small development house, we just did not have the resources or time. Please see our Discontinued Products page for more information...
