What happened to StoryMill?

Logan Ryan - 2019-10-09 - in StoryMill

Effective with the release of Catalina (10.15), Mariner Software has ended development of StoryMill. To update the product to 64 bit (and other various requirements) would have taken thousands of man-hours to achieve and as a small development house, we just did not have the resources or time. Please see our

Discontinued Products page for more information...
