## What is in Excel but not in Calc XLS?

Corey Johnson - 2015-03-24 - Calc XLS

What features and functions are in Excel but not in Calc XLS?

There are literally thousands of features in Excel and there are many we don't support. Below is a list of the functions we don't support (yet).

As of version 4.0

### FEATURES:

graphics

charts

ODBC lookups

cell protection

sheet protection

workbook protection

password protection

pivot tables

OLE linked/embedded files

Nested named ranges

external references

conditional formatting

macros

Visual Basic

here is a function list that we don't support:
