What's new in Paperless for Mac 2.2?

Here is what's new in Paperless 2.2.0:

### Added Features

- Updated device list to recognize the ScanSnap 1300i.

### Fixes

- Fixed Image Capture (ImageKit) scanning under Mac OS X 10.8 (Mountain Lion).
- Fixed a number of issues where the PDF viewer would not update properly when adding, removing or re-arranging pages.
- Fixed a problem where dragging and dropping an item from a library to the Finder would remove that item from the library.
- Fixed one cause of a crash in reports.
- Fixed a crash that would happen when viewing reports after a checkbox had been added to a reports view.
- Fixed problems with droplets under Mac OS X 10.8 (Mountain Lion).
- Fixed an exception that would occur undoing combine documents.
- Fixed an exception that would occur when the OS would prompt to authorize Paperless to access Contacts.
- Added a fix to prevent an uncommon crash when closing a viewing window.
- Fixed a problem where printing reports would include the reports would include the reports view header buttons.

### Additional Changes

- Removed support for scanning with TWAIN scanner drivers.
- Updated code signing for Mac OS X 10.8 (Mountain Lion).
- Compiled for Mac OS X 10.6, 10.7 and 10.8 (Mountain Lion).
