What's New in StoryMill 4?

StoryMill 4 contains the following new features:

- Completely redesigned timeline view with unlimited time spans that scale from minutes to centuries
- Snapshots so you can make backup copies of your work before making those experimental changes to your prose
- A full novel view of your book
- The ability to add pictures to any item in your project independent of your notes
- The ability to store links with items
- Completely redesigned UI
- Many bug fixes
