Will Montage allow me to import text (.txt) files created with TextEdit or similar a program?

Jim Henson - 2022-05-19 - in Montage

Will Montage allow me to import text (.txt) files created with TextEdit or similar a program?

Yes. To import a text file, simply select Import from the File menu, choose the text file you wish to import, select the template you'd like to use to format the incoming text, then click Open.
