How do I import a recipe from the web?

Corey Johnson - 2015-12-13 - Gourmet Mobile for iOS

- 1. Tap the search magnifying glass on the bottom.
- 2. On the next screen, tap the "g" that is in-between import and the "go" magnifying glass. Another search field appears that is a google custom search.
- 3. Enter you search term in that search field.
- 4. Recipes matching display.
- 5. Tap on the recipe of your choice.
- 6. Tap "import" to import the recipe into your recipe box.
- 7. Tap Save.
- 8. Tap Done.
