 What improvements have been made in Mariner Write 3.9?

Mariner Write 3.9 is a special, promotional version we were asked to create for MacHeist. We are also releasing this version as a complimentary minor upgrade to all Mariner Write 3.0 customers. Some of the aesthetic and functionality improvements we are working on in our next major release, Mariner Write 4.0, can be seen in version 3.9 (toolbar, icons, Mac OS X spell checking, integrated Mac OS X dictionary & thesaurus). We don't quite have a timetable on introducing Mariner Write 4.0.
